It's winter. We are stuck inside and you are running out of ideas to stay interesting. This is the perfect clinic for you! You don't want to miss out on this opportunity to spice up your relationship with your horse and learn to be a more inspired and provocative leader! Spend six hours in a small group (4-6 students) and learn how to make riding in an arena more fun! Also, learn how to become a better rider through Fluidity concepts. Become more graceful, savvy, and fluid in your riding to be a better leader in the saddle.
